1.3. The PIN represents the Client’s electronic identifier. It is used for transactions at ATMs and POS terminals.

1.4. The card user can change the PIN at any time whether or not the Client remembers the current PIN.

1.5. The Client pays the card fee on an annual basis, starting from the day the card is ordered until the card’s expiry date. The fee will be debited based on the existing service tariffs from the Client’s current account in the national currency or current foreign currency account/savings account, or from the allowed limit of a credit card. If the money is deducted from the account in a currency other than the national currency, the amount will be converted according to the Bank’s internal commercial exchange rate.

1.6. When the Client orders a card, a security question and answer are solicited that are used to identify the Client on the phone. The Client is forbidden to share this information with third parties.

1.7. The Client can contact the Bank’s call centre (phone number: +995 32 220-22-22, *2222), go through the identification process and receive information concerning card-related operations or block the card (if necessary).

- Cash operation - cash withdrawal from an ATM/POS terminal
- Cashless payments - payments via POS terminals or through the Internet

2.3. If the transaction/withdrawal is made in a currency different from the card currency, the transaction will be reflected on the card statement in an equivalent amount. The exchange rate depends on the ATM/POS terminal network through which the transaction was performed:

- Conversions for transactions conducted on the Procredit Bank Georgia ATM/POS terminal network are carried out according to the Bank’s internal exchange rate on the day of the transaction.
- For other ATM/POS terminal networks, conversion is carried out according to the exchange rate defined by Visa.

2.4. The actual date of the card transaction is different from the date on which it is reflected on the loan account and depends on the ATM/POS terminal network processing the transaction:

- Card transactions made on the Procredit Bank Georgia ATM/POS terminal network are reflected on the loan account on the following day.
- Internet transactions and transactions made via other ATM/POS terminal networks are reflected on the loan account after transaction processing by the payment system. The maximum transaction processing time is thirty (30) calendar days.

2.5. If the card transaction is cancelled, the cancelled transaction sum is transferred to the Client's current account and not to the card account.

2.6. The Bank sets a daily limit for ATM cash withdrawals and POS terminal/Internet payments. The daily limits are stated in the card service tariffs.

3.4. Always pay attention to the amount, currency and date indicated on the receipt when you make a purchase and sign the receipt or enter the PIN and ask for a copy of the receipt. Make sure that your confidentiality rights are not violated when entering the PIN.
